

Qusai Jamous - Flutter Developer CV

Qusai Adnan Jamous

Flutter Developer

Amman, Jordan | +962 797313842 | qqjamous12@gmail.com

Profile

A software engineering graduate with a strong background in mobile development and systems analysis. Passionate about building innovative Flutter applications with clean architecture and modern technologies. I possess strong problem-solving skills and continuously seek to improve my technical abilities through hands-on projects and collaboration.

Education

Bachelor Degree in Software Engineering, The Hashemite University (2024)
GPA: 3.17 (Very Good)

Technical Skills

- 1 Flutter App Development
- 2 Architecture: MVC, Clean Architecture
- 3 State Management: GetX, Cubit, Riverpod
- 4 Networking: Dio, HTTP, RESTful APIs, Socket.IO, WebSocket
- 5 Firebase Integration (Auth, Firestore, Realtime Database, Cloud Messaging)
- 6 Supabase and Firestep Integration
- 7 Google Services: Google Maps, Google Notifications
- 8 Map SDKs: Mapbox, Sygic Maps
- 9 Local Storage: Shared Preferences, SQFLite Database
- 10 Version Control: Git & GitHub
- 11 API Tools: Postman
- 12 Workflow: Agile / Scrum
- 13 App Deployment: Google Play Store Deployment, App Signing & Release Builds
- 14 SDK & API Integration
- 15 Cross-Platform Mobile Development
- 16 UI/UX Design and Responsive Layouts

Experience

Mobile Developer at Token Masters (July 2024 – Present)

- 1 Collaborated on multiple Flutter projects with clean architecture principles.

- 2 Integrated APIs, SDKs, and real-time socket connections.
- 3 Worked with Firebase, Supabase, and Google Maps SDKs to enhance user experience.
- 4 Improved performance and optimized data flow using GetX and Cubit.
- 5 Built, tested, and deployed high-quality cross-platform apps.

Courses

- 1 Flutter for Beginners (Udemy)
- 2 Flutter Clean Architecture (MVC)

Languages

- 1 Arabic (Native)
- 2 English (Proficient)
